

SPECIAL NOTICE.
HIGHLY IMPORTANT TO THE WEST.—It has been long thought that the citizens of the West were to see better times in regard to the bilious diseases with which portions of our noble country are visited. The true medicine is at length offered to us by the celebrated Graefenberg Company. Their advertisement is in another column, to which the attention of every man, woman and child should be immediately given.

GRAEFENBERG PILLS.
20,000 boxes sold each and every week.

THE GRAEFENBERG COMPANY desire to call the attention of every one interested in the health of the great and beautiful West, to their views respecting

BILIOUS DISORDERS.
This class of disease is the Great Scourge of the western hemisphere. Go where we may their effects are seen and felt. The brave and self denying soldier who presses his way to the west, to make the wilderness bud and blossom in the rose, meets this dreadful evil. He is willing to work hard and endure every privation, thanks be to him. But in a little while he is seized with some form of bilious disease. His strength now is weakness. A cloud comes over his prospects, and he exclaims "would that there were some medicine to prevent this dreadful evil, and to cure it when it does seize upon its victim?" From the moment of the landing of the Pilgrims of Plymouth to the present hour, bilious diseases have sent sorrow and desolation throughout the land. Let the graves of the loved and the lost tell the story!

A momentous question here comes up. Does the Supreme Ruler intend that toiling sons of the West, meet so willing to bear the heat and burden of the day, should be subjected to so sad a calamity? It is not improper to say

NO—NO—NO!
And why do we say NO? Because there is no class of diseases that can be certainly prevented and cured as those now spoken of. This is the great fact to which the Graefenberg Company would call the attention of GOVERNORS, CLERGYMEN, JURISTS, LAWYERS, MEDICAL MEN, PHARMACEUTISTS, every dame and maid, husband, father, wife and mother in the entire West. There is no reason why Bilious disorders should not be

FOREVER BANISHED
from the West. The reader may not believe this; he may smile at the idea. But in these days of Great Discoveries why should not something be found which will control and cure diseases which are, in their nature controllable and curable?

It is a well known fact that the true nature of bilious disorders has been partially understood. Here has been the great secret of the utter failure of nearly all the medical men and medicine-vendors of the day. To

BREAK THE CHILL!
seems to have been and to be their great aim in fever and ague; and to purge, drench, bleed and unceremonize in all the other forms of blood fever. What have been the consequences? They are too well known to need relating. Tens of thousands have died, millions have had their blood poisoned by mercury; scarcely any have been permanently cured.

The true theory is

PREVENTION!
and in cases where it is in the system, to eradicate it thoroughly.

All these ends are surely attained by the celebrated

GRAEFENBERG VEGETABLE PILLS.
Let them be fairly tried throughout the great West, and the Bilious Taint which clings to the system almost like leprosy, will be eradicated. Health will be speedily restored; the sallow complexion will be fresh and fair; strength and pleasurable sensations will return, and the next season will not find the

GRAVE YAWNING
for the victims of the disease referred to. We venture to say that if these Pills were furnished to every family in the United States at the expense of

THE GENERAL GOVERNMENT,
it would be the most economical and merciful expenditure ever made. Why? Because from every family all Bilious tendencies would be banished! The West would no longer be dreary.

There would be

NO MORE SICKLY SEASONS!
The inhabitants there would be as free from such complaints as those of the healthiest portions of New England.

Unlike all other anti-bilious medicines, the Graefenberg Pills utterly prevent the formation of the disease within the system. Those who use them according to directions, CAN NOT BECOME BILIOUS!

With these remarks the Graefenberg Company invite a still more extended trial of their Pills.

1st. Let neighborhoods club together and get a supply, and distribute to every family.

2nd. Let Clergymen recommend and distribute them.

3rd. Let Landlords furnish them to the settlers on their lands.

4th. Let Emigrant Societies and other philanthropic bodies furnish them to the needy.

In short, there is no earthly reason why the West should not be perfectly healthy; that on its beautiful prairies, so verdant, its noble streams strong and vigorous health should not be enjoyed.

In the following diseases these Pills also achieve equally wonderful triumph.

Asthma, Nervous Disorders, Bilious Complaints, Fever—Low, Nervous, Intermittent, Belts, Vomits, Bowels, deficient action, Breast Pangs, Flatulency, Catarrh, Urter Albus, or Whites, Constipation, Gastric Fever, Cough of Pregnancy, Green Sickness, Costiveness, Gripes, Diarrhoea, Heartburn, Difficult Breathing, Head Ache, Dyspepsia, Hysterics, Dysepptic Consumption, Incontinence of Urine, Digestion, imperfect, Determination of blood in the head, Ear Ache, Erysipelas, Epilepsy, Liver complaints, Low Spirits, Menstruation Suppressed, painful, Whites.

In all bilious and chronic disorders, these Pills achieve the most wonderful triumph. Here they defy competition. And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some

THE PILL OF THE NEW WORLD.
Their wonderful efficacy in these complaints arises from their power to open the Pores cleanse and strengthen the Stomach and Bowels; make the Urine flow healthily and clear; and to give tone and strength to the system!

WHOLESALE WAREHOUSE,
49 John Street, New York.

In towns where there is no branch, the Company will appoint one on application by letter post paid or otherwise.

Persons wishing the Pills by mail, can order them.

Price 25 cents a box.

D. HANSBROUGH & CO., Vicksburg, General Agents for the State of Mississippi, and the Parishes of Carroll, Onitoba, Union, Claiborne, Bossier, Caldo, Madison, Franklin, Tensas, Concordia, Catahoula, Natchitoches, Desoto, Avoyelles, Rapides & Sabine in the States of Louisiana.

The above Pills are for sale by **O. L. KIMBROUGH & Co.,** Carrollton, Agents for Carroll Co. March, 17, 1847.

AMENDMENT OF THE CONSTITUTION.
For the benefit of the public, and from the interest we feel in the proposed amendment, we shall bring the following "before the people" occasionally between now and the election, without expense to the great and free State of Mississippi.

OFFICE OF THE SECRETARY OF STATE,
Jackson, Miss. March 25, 1846.

In obedience to an act of the Legislature of the State of Mississippi, approved March 3, 1836, I, Wilson Hemingway, Secretary of State, do hereby publish and make known the following "Act to amend the constitution of the State of Mississippi."

AN ACT TO AMEND THE CONSTITUTION OF THE STATE OF MISSISSIPPI.

§1. Be it enacted by the Legislature of the State of Mississippi, (two-thirds of each branch concurring, That the seventh article of the Constitution of this State, under the title or head "General Provisions," be so altered and changed by the addition thereto of the following section, viz: "Section 19. No bank charter shall hereafter be granted by the Legislature of this State, nor shall any bank charter heretofore granted in this State, be renewed, extended or altered, except for purposes of liquidation."

§2. And be it further enacted, That it shall be the duty of the Secretary of State, at least six months preceding the general election in November, 1847, to give notice, by advertising in three or more public newspapers, printed in this State, of this act, and the alteration hereby proposed, to be made to the Constitution of this State; and at said election, the qualified electors voting for members of the Legislature, shall vote for or against the alteration herein proposed to be made in the Constitution in the following manner, viz: those voting for the alteration herein proposed, shall write on their tickets the words "No Banks, amendment," and those voting against it, shall write on their tickets the words "Banks, no amendment."

§3. And be it further enacted, That it shall be the duty of the Sheriffs of the several counties in this State to make returns of the votes given for and against said alteration, and also the whole number of votes given for members of the Legislature, to the Secretary of State, to be by him laid before the next succeeding Legislature; and if it shall appear that a majority of those voting for members of the Legislature shall have voted for the alteration herein proposed, the alteration or amendment contained in this act shall be inserted by said Legislature in the Constitution of this State as a part thereof.

Approved March 3, 1846.

The editor of the Tribune will please publish the above.

Respy, **W. N. HEMINGWAY,** Secretary of State.

THE GREAT FRESHET!
In consequence of the great difficulty experienced by the public in procuring the necessities of life at "noble places" on the river, during the overflow, the undersigned have determined to keep in Carrollton, above high-water mark, a general assortment of

—DRY GOODS and GROCERIES—
4-4 and 6-4 bleached and unbleached Lowells; Double-width Sheetings; Prints, Lawns, Linen; Boots, Shoes, Hats; Lard and brown Sugar; Molasses, in whole and half bbls Rio and Havana Coffee; Tea, Rice, Buckwheat Flour; Best Chewing Tobacco, Cigars, Snuff; Quinine, castor and sweet Oil, es. Peppermint, Lemon Syrup; Dupont's 111 sporting Powder, in canisters, do. in kegs; Shot and Lead; Hames and Plough lines; Crockery and Tinware; A lot of Fancy Articles; A general assortment of Confectionary; And also a full supply of the justly celebrated Graefenberg Pills;—All of which we do offer to sell at a small advance on cost for CASH and cash only.

O. L. KIMBROUGH & CO.
May 24, 1847

Just published at this Office,
RULES OF PRACTICE in the Circuit Court of the Sixth Judicial District—Prepared by a Committee of the Bar, and approved by Judge Rogers.

Neatly printed in pamphlet, stitched and covered—price 50 cents. Twelve copies, (postage 75 cts.,) for \$5.

FOR SALE—A large, good MULE
THOS. A. WATKINS.

Jewelry.—Several single and double-cased gold lever Watches; gold Pencils cases; fine gold Pens, with silver holders; fine gold Rings; do. Shirt buttons; silver Thimbles, &c. all warranted fine quality.

Clocks.—Fine Brass 8-day and 24-hour (Alarm) Clocks, at a small advance on manufacturer's prices.

July 12

DR. LE ROY'S
Vegetable Universal Pills,
The only known Medicine that at the same time Purges, Purifies and Strengthens the System!

DR. LE ROY'S PILLS is a new medicine which has just appeared, and is fast taking the place of others of the same class. These pills are composed of many ingredients, but the principal ones are Sarsaparilla and Wild Cherry, so united that they act together—the one, purifying and purging, while the other strengthens the system. Thus these pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words, they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no reaction. Dr. Le Roy's Pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all noxious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no debilitation, so there is no nausea or sickness attending the operations of this most excellent of all medicines, which never strains or tortures the digestive functions, but causes them to work in a perfectly natural manner, and hence persons taking them do not become pale and emaciated, but the contrary, for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound, and hence a robust state of health is the certain result of their united operations.

FROM THE LIVERPOOL MERCURY.
This popular Medicine, though but recently made public, has been long used by Dr. Le Roy in his own practice. It removes all forms of indigestion, as it powerfully influences the Stomach, Head, and Liver, and is a General Aperient. A single trial will prove its efficacy over other popular remedies, as it contains nothing dangerous, it may be taken with out medical advice, which in most cases it renders unnecessary. For the usual diseases, as Headache, Gout, Colds, Nervous complaints, &c., it is a certain remedy, as it insures good digestion and free circulation of the blood. It is likewise peculiarly effective in correcting excess of diet, fatigue and anxiety, and, in short, we in common with public opinion, esteem it the best of all Family Medicines.

For sale by **R. T. JOHNSON & Co.,** Agents, Carrollton, Mi. June 23, 1847. 28m3

BRANDRETH'S PILLS.
Are entirely vegetable, and made on those principles which long experience has proved correct. It is now a speculation when they are resorted to in sickness, for they are known to be the best cleansers of the stomach and bowels, and in all dyspeptic and bilious cases they are a great blessing. Let every family keep these Pills in the house. If faithfully used, when there is occasion for medicine, it will be seldom that a doctor will be required. In all cases of cold, cough, or rheumatism, the afflicted owe it to their bodies to use these Pills.

FEVER and Ague, and all Fevers cured by Brandreth's Pills.—All fevers are occasioned by the disordered motion of the blood, produced by the humoral serosity by hardening the valves of the vessels. The blood circulates with greatly increased speed, and is still increased by the globules, or particles which compose the mass of fluids. Then it is that the excessive heat and chills is experienced through the whole system, and accompanied with great thirst, pain in the head, back, kidneys, and in fact a complete prostration of all the faculties of mind as well as body.

On the first attack of fever, or any disease, immediately take a large dose of Brandreth's Vegetable Universal Pills, and continue to keep up a powerful effect upon the bowels until the fever or pain has entirely ceased. Six or eight pills will in most cases be sufficient as a first dose, and one dose of this kind, it is not improbable, may prevent sickness, and perhaps death.

AGENTS.
R. T. JOHNSON & Co., Carrollton; **A. L. Edgington,** Lexington; **J. Blondell,** Benton; **J. V. Steen,** Greenesboro; **J. A. Vent & Co.,** Middleton; **Bridges, Shaw & Co.,** Coffeeville; **A. G. Boon,** Grenada—And by an Agent in every town and village in the State. June 23, 1847. 6m

STEAMER DIME,
Regular Packet between Vicksburg and Leflore and Williams' Landing, taking freight and passengers for all intermediate landings and plantations.

The substantial and light draught passenger steamer DIME, Capt. J. D. JACKSON, will leave Leflore and Greenwood every Saturday at 8 and 9 o'clock A. M. every

SATURDAY, and leave Vicksburg every **TUESDAY,** at 12 M.

The Dime has been purchased for the trade, and will ply regularly. Shippers may rely upon her punctuality, and upon getting their goods without detention in the lowest stage of water.

MORRIS & WILLIS'S HOME JOURNAL,
FOR FAMILY CULTURE.

AFTER a great deal of experience in the art of editing a newspaper to the prevailing want, we have selected our present model of shape and type, and have decided on the present plan of contents, as, in the first place, the cheapest, most improving and most amusing to the reader—and, in the next place, which is important, too, the best calculated to put forth the peculiar powers of the Editors themselves. We

TAKE A PRIDE
in the carefully matured model, and in the peculiar character selected for our paper. Looking to the very centre of new literature, we ransack the counters of booksellers, and give the

Essence of New Books.
Receiving all the English Periodicals, we carefully watch the active intellects devoted to ephemeral literature, and pick the

Genus of Foreign Periodicals.
We receive the admirable journals of France, and translate with diligent care *The Wit, Gaiety, and Curious Novelty of Life in Paris.*

Of the great metropolis we live in, we give the

Gossip, News, Movements and Doings, and of the country generally we give a summary of

Things Novel and Noteworthy, keeping a record, at the same time, of all *Great Thoughts going past us,* and commenting on the

New Opinions, New Writers and New Inventions.

DIFFERS FROM ALL OTHER PAPERS, and we have every means of making it most valuable. We have embarked our *Ambition, Energies and best Resources,* in the character, success and influence of

THE HOME JOURNAL.
DOMBEY & SON
will be continued as heretofore, without any abridgement of the contents of the paper. The six parts already published will be furnished to new subscribers gratis.

Subscription—\$2 in advance. Address **MORRIS & WILLIS, 107 Fulton-st.,**

A. S. S. NEWTON, P. M.
To the Afflicted World!

A NEW SYSTEM OF MEDICAL PRACTICE A
Dr. THOMAS'S Infirmary—one mile north of Memphis, Tennessee.

WHERE Cross Eyes are made straight, bright and beautiful; Club Feet are made straight, strong and useful; the Deaf are made to hear, and the Blind receive their sight, and those that are Deranged restored to their right mind. Also, Gravel, Cancers, White Swelling, Scrofula, Sore Legs, Ulcerous and long-standing Sores, of every description, Asthma, Phthisis, Spitting of Blood, Cough, Consumption, Scald Head, Tetters, Rheumatism, Dyspepsia, Palsy, Polypus, Fleur Albus, Dropsy, Diseases of Liver, Lungs, Spine, Bladder and Spleen, Hernia or Rupture, Dysentery, and all manner of Bowel complaints, Hydrophobia, Tic Douloureux, Chronic Bronchitis, Fistula in Ano, Fits, Syphilis, Gleet, Stricture, Impotency, Mercerial and Venereal diseases of every stage and variety. The barren made fruitful, and all chronic and lingering diseases of every name and grade. Too numerous here to mention, will be thoroughly cured, or no charge will be made for medical services rendered.

For extraordinary cures in the families of eminent physicians, Dr. Thomas has received the following presents: From Dr. Earle \$200; from Dr. Nardin \$500; Dr. Russum \$200; Dr. McLean \$200; Dr. Black \$300; Mr. Roper \$200—and several hundred dollar presents from farmers and others.

Editors who are willing to help in relieving the great sum of human misery, suffered by disease, who will publish the above, with the annexed certificates every other week for twelve months, shall have their bills paid in medicine, or board and medical services rendered at the infirmary of the subscriber, to any afflicted person or persons they may see proper to send, when an opportunity may occur.

B. R. THOMAS, M. D.
CERTIFICATES:
Memphis, Tenn., 1844.

We the undersigned citizens of Memphis, having the pleasure of an acquaintance with Dr. B. R. Thomas, most cordially recommend him to those afflicted with chronic and lingering diseases, Cancers, ulcerous and long-standing Sores, Scrofula, &c., and as a gentleman and physician worthy of all confidence.

Fred. P. Stanton, Rep. in Congress; W. C. Dunlap, Judge Circuit Court; J. J. Finley, Mayor; E. J. Shields, R. K. Turage, P. G. Gaines, Att'y; Henry Van Pel, Editor; Thomas G. Johnson, Commercial Hotel; J. M. Fletcher, of Central House; John G. Bostick, Exchange Hotel; Mrs. D. D. Worsham & Son, Richmond House; W. H. Henrie, Gayoso House; Watson & Williams, J. H. Reynolds, Jennings & Osgood, H. Test, Cook & Bohannon, Druggists; S. Fowlkes, Kirk & Thomas, D. Park, Merchants; W. F. Tannehill, Bookseller; R. L. Kay, Cumberland Iron store.

Shelby county, State of Tenn.
This is to certify that my negro woman, Amrit, was for four years afflicted with a very bad Cancer, which took off a considerable portion of her nose, ate through her upper lip, attacked her throat, and destroyed a part of the roof of her mouth and palate. Several of the most celebrated cancer doctors had tried to cure it, but in vain. Dr. B. R. Thomas undertook it, but not with the expectation of performing a cure, for he believed it to be too far gone, and entirely out of the reach of remedy, but to test the power and efficacy of a new remedy, he tried the experiment. He has removed all cancerous appearances, and healed the lip, nose and throat to all appearance perfectly sound and well, which I consider the greatest cure I have ever seen in my life. Also, I had three negroes afflicted with dropsy—one of them a woman about 50 years of age, and a bad case; all three were cured in a short time by Dr. Thomas. From my personal acquaintance with the Doctor and his practice, I most cordially recommend him to

the public, and all those afflicted with cancers, chronic and lingering diseases, as a gentleman and skilful physician, believing, as I do, if there is any cure of them, he has the remedy. **N. G. SMITH.**

To all whom it may concern.—I was for several years afflicted with a bad eating cancer. Several eminent physicians tried to cure it but in vain. I then tried two celebrated cancer Doctors, and was under their treatment for eighteen months, but received little or no benefit. They said I could not be cured—that the cancer was a constitutional one, and consequently beyond the reach of all remedies. I then travelled 300 miles to a Faith Doctor, who had great fame as a cancer doctor. I received no benefit. I then had it taken out very deep with the knife by a skilful surgeon, but alas! it soon grew again, and was now in ten fold worse condition than it had ever been before. About this time I heard of Dr. Thomas, and applied to him to do the best he could for me, (it was the last effort I ever intended to make.) I am happy to say that the best was preeminently good. In nine weeks every part of the cancer dropped out about as large as the egg of a goose, and the place soon healed up perfectly sound, and has remained so ever since, being sixteen months since I was cured. Dr. Thomas charged me only one hundred dollars for a perfect cure, after I had paid over three thousand dollars to other physicians without benefit. Dr. T. needs no other recommendation but a fair trial, to cure cancer, chronic and lingering diseases. Given under my hand, this 20th day of June, 1845.

JOHN D. ROPER.
In addition to the medical bill, Mr. R. made me a present of \$200.

To the Editor of the Appeal:
Dear Sir: While detained in your city by ill health and other causes, I have to mention, my attention was attracted by a long list of certificates published in your paper in relation to extraordinary cures effected by Dr. B. R. Thomas. I was the facility with which certificates are obtained, and the fraud frequently practiced to procure them, I resolved to pretermitt them; but struck with the imposing array of names, I was induced to change my determined to change my determination, and give them (if I might be permitted to use the expression), the benefit of an unprejudiced perusal. I am now convinced that there is no exaggeration about the subject matter of these certificates. The individuals who have given their testimony in favor of the skill and moral worth of Dr. Thomas, are gentlemen of talents and high standing, and have represented the truth, the whole truth, and nothing but the truth. I had no acquaintance with Dr. Thomas, but such was my curiosity to see a gentleman who had accomplished as much if not more than any other man for the cause of suffering humanity, that I visited his Infirmary and introduced myself. On entering into conversation, I found him to be exceedingly intelligent, communicative and courteous, and disposed to treat me with every proper respect and attention. He answered all my inquiries for information with great frankness, and opened for my inspection the numerous and commodious rooms of his infirmary. He also afforded me an opportunity of strengthening my already strong faith in his wisdom and unrivalled skill, by showing me a number of patients abandoned by other physicians as incurable, but restored to health by his more judicious and skilful mode of treatment. Among the cases of cure were the following:

A case of prolapsus uteri, of 15 years' duration, and so bad that the patient was confined to the bed nearly all the time, but cured by his mode of treatment in three months. A cancer of four years' duration, involving the nose, upper lip, throat and palate, which had baffled the skill of two celebrated cancer doctors, but perfectly cured by him in a few months. A case of mental derangement of two years duration cured in three months. Two patients with obstinate fungus ulcers for more than ten years' duration—pronounced incurable by other physicians, but cured by him in a few months. I must not forget to state, I saw a patient who, when he entered the infirmary in the spring, was emaciated to a skeleton, and afflicted with almost entire blindness, but has since so much improved as to be able to take exercise without fatigue, and read small print.

Having been taught and graduated in the old school of medicine, and wedded by prejudice and education to my medical creed, I defended and practiced it for the period of seven years, but discovering by observation and experience that many of the remedies were unsafe and injurious, I renounced the use of calomel *et id omne genus*, and adopted the eclectic or reformed system of practice. In calling the attention of the public to the extraordinary cures of
